

Full-Stack Software Engineer

North Carolina, USA | Greece | Remote • grcodes@outlook.com • 813-270-5693 • www.giannisroussos.com • linkedin.com/in/giannisr

Profile Summary

Software Engineer and former Critical Care RN specializing in **HealthTech Interoperability**. Expert in building full-stack solutions that bridge the gap between complex clinical workflows and production-grade **HL7 FHIR R4** architectures.

Technical Skills

Back-End: Node.js, Express, GraphQL, PostgreSQL, SQL, Prisma ORM, REST APIs, JWT Authentication, Firebase

Front-End: React, Next.js, TypeScript, JavaScript (ES6+), Redux, Tailwind CSS, Three.js, WebGL, HTML5, CSS3, Axios

Databases: PostgreSQL, SQL, Firebase, Firestore

Cloud & Infrastructure: AWS (EC2, S3, RDS), Vercel, Git, GitHub

Healthcare Tech: HL7 FHIR R4, EHR Interoperability (Epic/Cerner workflows) **API-First Infrastructure**, HIPAA-compliant architectures.

Professional Experience

Clinical Telemetry Gateway | *Node.js, Next.js, AWS App Runner, HL7 FHIR*

- **Architected a HIPAA-aligned, API-first, full-stack system** using an Express.js proxy on AWS to aggregate and transform **HL7 FHIR R4** data for high-acuity environments.
- **Developed a real-time Next.js dashboard** with SVG waveform rendering and environment-driven configuration for seamless, production-grade deployment.
- **Optimized low-latency data delivery** by offloading complex **GraphQL-ready** resource transformations to the backend, reducing client-side overhead by 30%.

Software Engineering Intern, Skintric (Remote) | Jan 2026 – Feb 2026

- Engineered a React/Browser Media API selfie-capture interface with real-time feedback and built a secure image-upload dashboard using Next.js.
- Translated complex medical charting requirements to a modern, high-performance health-tracking User Interface.

Software Engineering Intern, Summarist (Remote) | Dec 2025 – Jan 2026

- Developed a Next.js audio-book platform integrating multiple APIs; optimized loading and SSR for a seamless UX.
- Scaled application to full-stack status with Stripe payment integration and a Firebase-hosted back-end.

Critical Care & Emergency Registered Nurse | 2017 – Present

- **High-Stakes Clinical Systems Ops:** Managed life-critical care and autonomous decision-making in high-pressure ICU/ER environments; led resuscitations and interventions while maintaining calm, analytical focus on outcomes.
- **Data Integrity & Troubleshooting:** Executed technical troubleshooting for EHR systems (Epic/Cerner) across 15+ facilities; managed real-time data flows from bedside telemetry into digital records to ensure zero-latency delivery of mission-critical clinical data.

District & Sales Manager, InterFACE/DriveTime | 2011 – 2015

- Managed operations for 7 locations, increasing regional profitability by 17% through data-driven operational initiatives and staff leadership.

Education
