Profile

Frontend Engineer with a background in high-stakes operations and critical care. Expert in building responsive, user-centric web applications using React, Next.js, and TypeScript. Having navigated complex EHR systems for years, I bring a unique perspective on UX friction points and the critical need for intuitive design. I combine a developer's technical mindset with a Sales Manager's focus on business goals, ensuring every line of code drives both user satisfaction and organizational growth.

Additional Experience

Frontend Engineering Intern, Skintrinsic, Remote

Jan 2026 to Feb 2026

- Engineered a React/Browser Media API selfie-capture interface with real-time feedback; built a secure image-upload and processing dashboard for clinical tracking using Next.js.
- Translated medical charting requirements into a modern, high-performance health-tracking User Interface.

Frontend Engineering Intern, Summarist, Remote

Dec 2025 to Jan 2026

- Developed a Next.js audio-book platform integrating multiple APIs for dynamic content; optimized asset loading and SSR to ensure a seamless user experience.
- Scaled up to a full-stack application complete with seamless Stripe payment integration and back-end hosted by Firebase

Intern, Walt Disney World, Orlando, FL

Sept 2001 to Mar 2002

- Learned customer service from the best in the business.
- First exposure to how a large corporation operates.
- Started building the good work habits and practices that follow me to this day.

Featured Projects

Netflix Clone & User Auth

React, Firestore, Firebase Auth

- Engineered a high-fidelity streaming UI with functional Firestore backend for secure authentication and watch-lists.

Interactive 3D Storefront

Three.js, WebGL

- Developed an immersive 3D product tool, demonstrating advanced rendering and interactive browser experiences

Career Experience

Multiple Employers

2017 to Present

Critical Care & Emergency Registered Nurse (Travel/Staff)

- Executed high-pressure troubleshooting for complex EHR/EMR systems across 15+ facilities (Kaiser, Emory, MedStar). Applied ICU-grade analytical decision-making to production-down scenarios.
- Partnered with interdisciplinary teams to ensure system integrity across diverse organizations.

InterFACE / DriveTime
District & Sales Manager

2011 to 2015

- Managed operations for 7 locations, aligning technical and operational initiatives with business KPIs to drive regional profitability and enhance customer experience. Expanded locations and profitability by 17%
- Recruited, selected, and on-boarded staff; designed and delivered training and coaching programs to improve performance consistency across locations.
- Standardized reporting and operational processes to streamline workflow, improve inventory control, and enable data-driven decisions at the district level.

Olympic Air (Athens, Greece)
Crew Coordinator

2009 to 2011

- Managed real-time scheduling and logistics for 700+ crew members, swiftly resolving technical and staffing disruptions to maintain on-time operations.
- Coordinated with operations, maintenance, and dispatch to execute contingency plans that minimized delays and ensured regulatory compliance.
- Introduced process improvements to streamline communication during irregular operations, increasing operational resilience under pressure.

Diageo, Greece
Outlet Developer

2007 to 2009

- Maintained and grew relationships with ontrade accounts, acquiring new clients and increasing product market share in the territory by an average of 35%.
- Negotiated and closed distribution and promotional agreements; organized instore events to drive brand awareness and sales volume.
- Managed company assets and funds, kept detailed client and activity records, and consistently met or exceeded sales and volume targets.

Greek Armed Forces
Platoon Leader

2005 to 2009

- Led a platoon of 30 soldiers—responsible for training, promotions, discipline, and operational readiness.
- Designed and delivered tactical and technical training; specializations include AntiTank weapons instruction, Green Beret qualification, and parachute operations.
- Honorably discharged as Second Lieutenant (Reserve).

Education

Frontend Software Engineering Program
Frontend Simplified (FES)

Jul 2025 to Feb 2026

B.S. Nursing
Univ. of West Florida

Feb 2018 to May 2020

A.S. Nursing
Broward College

Mar 2014 to Dec 2016

B.S. HR Management
Oakland University

Jan 2000 to Dec 2004

Areas of Expertise

JavaScript (ES6+)	HTML5	CSS3	Tailwind CSS
Redux	React.JS	Next.JS	Vite
Three.JS	Firebase	Material UI	Visual Studio Code
API Integration	WebGL	Vercel	GitHub

Languages

Greek, English, German, French, Spanish
